Career Objective

As a Computer Science Engineering student with a strong passion for web development, my objective is to build innovative and user-centric digital solutions that bridge the gap between technology and real-world needs. I aim to refine my skills in creating clean, interactive websites while gaining practical experience in modern web technologies, application development, and problem-solving. Through hands-on projects and collaboration with teams, I seek to expand my knowledge in both front-end and back-end development. With a focus on continuous learning and growth, I am excited to take on challenges that push me to design and develop scalable, efficient, and impactful applications in a dynamic, fast-paced environment.

Education

G. Narayanamma Institute of Technology and Science
B.Tech in Computer Science and Engineering
Current Semester: 2-2 CGPA:
9.45/10

Singareni Collieries Polytechnic
Diploma in CSE (2021 – 2024)
CGPA: 9.97/10

Telangana Model School
SSC (2020 – 2021)
GPA: 10/10

Technical Skills

- **Languages:** Python ,Java, c++, SQL ,c
- **Web Development:** HTML, CSS, JavaScript
- **Databases:** MYSQL

Soft skills:

- Problem-solving
- Communication

Projects

Face Detection Attendance System

Built an automated attendance system using Python and OpenCV that detects and recognizes faces in real-time to mark attendance.
